BLOG

As of 1st October 2019 there remains in the BLOG Bank Account £4650.00. It has been agreed by the committee that we will keep this cash in place for a further year after which time if the Harrogate Plan has been approved and no other developments have been put forward we will then consider refunding the remaining cash to the investors.

We believe that one of the main reasons the Jomast Application has been refused and Loxley 2 Plan withdrawn was the way the village responded with cash to finance the fight. Without this the result could well have been different. On behalf of the village the committee would like to thank Richard Clark of Arrowsmith Associates for all his help, time and efforts in the campaigns; again without this the outcome may have been very different.
